Iowa State University

History

Created as the Iowa Agricultural College and Model Farm by the Iowa General Assembly in 1858, Iowa State University became a land-grant college under the terms of the federal Morrill Act in 1863 and held its first classes in 1869. Renamed the Iowa State College of Agriculture and Mechanic Arts in 1898, it became Iowa State University of Science and Technology in 1959.

Iowa State is the birthplace of the electronic digital computer and is the home of the nation's oldest state College of Veterinary Medicine. The university pioneered the establishment of agricultural studies on the college level and has been a leader in establishing the profession of home economics.

General Information

Iowa State enrolls more than 27,000 students and has more than 6,000 faculty and staff. It has played a key role in scientific and technological advances and has established an international reputation for research. Iowa State's Colleges of Agriculture, Business, Design, Education, Engineering, Family and Consumer Sciences, Liberal Arts and Sciences, and Veterinary Medicine have developed hundreds of programs of study leading to bachelor's, master's, and doctoral degrees and are home to several of the nation's leading research centers.

Iowa State is a member of the prestigious Association of American Universities. It is accredited by the North Central Association of Colleges and Secondary Schools.

The academic year is divided into three periods: fall semester (late August through December), spring semester (mid-January to mid-May), and summer sessions (June to early August). When classes are in session, the 50 bells of the Campanile provide daily noon-hour concerts.

Sports enthusiasts enjoy Division I competition in the Big 12 Conference. The Cyclones play basketball in the James H. Hilton Coliseum and football in Jack Trice Stadium. See pages 14-15.

Campus maps are available at the Iowa State Information Booth, located on Elwood Drive on the east side of the Iowa State Center.

In the listing **Bremer, Waverly (P)**, Bremer is the name of the community, and Waverly is the name of the city whose post office — indicated by (P) — serves Bremer.

Consumer Tips

You are protected by state and federal regulations that guide the way telephone companies do business. There are also things you can do to help protect your privacy and safety. Some comsumer guidelines are listed here.

Pay Per Call Service Information

What "900" Numbers are

Private companies offer a variety of informational programs using phone numbers that begin with "900." There is a charge for calls to these numbers. Charges for "900" calls appear on the Interexchange Carrier page of your bill. " 900" calls contain an introductory disclosure message specifying types of charges, time necessary to complete the call, and an option to disconnect without charge at the end of introductory message.

The price and content of "900" services are the responsibility of the companies that provide the information.

How to Block Calls to "900" Numbers

Your telephone company will assist you in blocking calls from your line to "900" numbers.

Other Questions About "900" Numbers

If you have a complaint or dispute about the "900" service, call the interexchange carrier. Services that contain illegal or sexually explicit materials are not allowed. Nor is your telephone service disconnected for disputes about payment of "900" charges.

Consumer Tips

Obscene or Harassing Phone Calls

Stay calm and hang up the phone.
Call your local telephone company for information on how to handle these types of phone calls.

It's against the law to make obscene or threatening phone calls. Telephone harassment is a crime. Penalties include imprisonment and/or a fine.

Unwanted Sales & Survey Calls

If you receive unwanted sales and/or survey calls, please take the following steps.

- Be skeptical of offers that sound too good to be true; they usually are.
- Report companies using questionable sales practices to the Better Business Bureau or your State Attorney General's office.
- Disconnect computer-generated calls by hanging up your telephone for 12 to 15 seconds.
- Call your local telephone company to have your name removed – at no charge – from any lists that they may lease to other firms. Customers with non-listed or non-published numbers are never included on the lists.
- Do not give your telephone credit card number to anyone who calls and asks for the number.

Billing Name & Address Disclosure

When you place a calling card call or accept a collect call or third-number billed call, your telephone company is required to provide your billing name and address to the telecommunications service provider that handled the call, if that provider requests. Your telephone company will continue to provide billing name and address information to telecommunications service providers for other account matters, such as customer service, servicing your account, to prevent fraud or when you move from one location to another.

Financial Assistance

Several programs provide financial help depending on your circumstances. The Low-Income Energy Assistance Program (LIEAP) provides money to qualified customers who need help with winter heating bills. Also, the major energy utility companies have their own financial assistance programs to help customers.

Telephone Assistance Programs

The Telephone Assistance Program (TAP) provides reduced phone bills for qualified low-income residence customers.

The Link-Up program provides financial help with telephone service connection charges for qualified low-income residence customers.

If you live on Tribal Lands and participate in a qualifying low-income program, you could receive additional benefits.

Call your local telephone company for more information about Telephone Assistance Programs.

You may also contact www.lifelinesupport.org for more information.

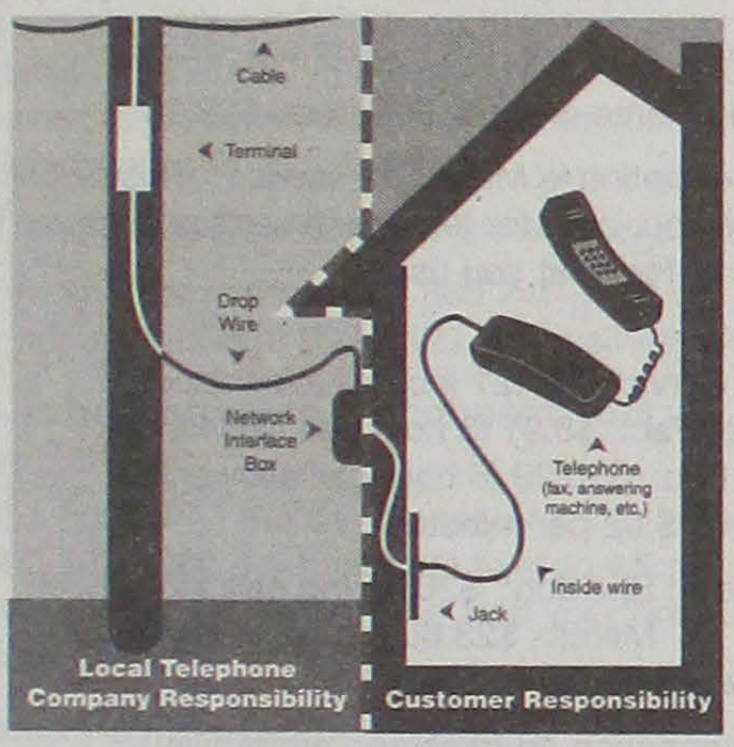

Repair Service

Simple tests can be done to determine whether to call your local telephone company or another company. These tests may save you time and money . Repair Service reporting numbers are in the front of this section.

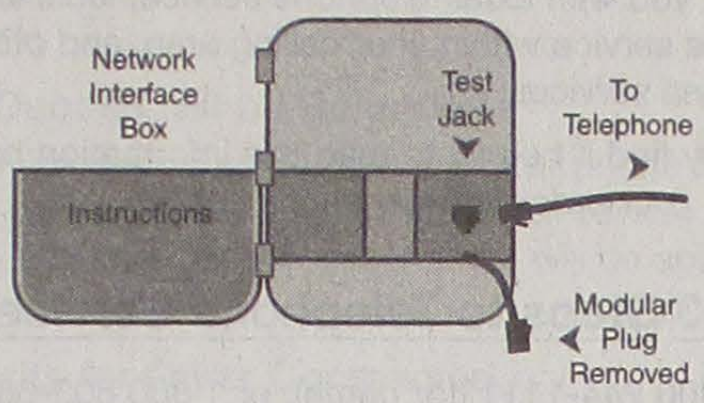

Before You Call

1 Hang up all telephones. Make sure phone accessories – answering or fax machines, computers, modems, security system, and telephone sets – are working. To check, unplug the phone cord from the unit or the jack and check for damage. Leave everything unplugged for 5 minutes. Then try plugging in phone sets one at a time to see if the trouble still exists.

2 If all the phone accessories are working, go to your network interface box. (Outside, where the phone line enters the house.)

3 Test to determine if the problem is inside or outside the house:

1. Take a working phone to the network interface box (single line phone only).
2. Remove the modular plug from the test jack and insert the modular plug from your phone.

If the same problem occurs:
the problem may be in the phone lines. Call your local telephone company. If the problem is in the phone lines, they will repair the lines at no charge to you.

If the problem does not occur:
the problem is in your wiring. Call your local telephone company or another company to repair your inside wiring.

If the problem is in your telephone set:
follow the instructions on your warranty or contact your equipment retailer for repair or replacement.

The "How To" of Starting Your Service

If Qwest is your local phone company, we can provide you with local telephone service, local long distance service within your calling area, and other telephone services.

You may find it helpful to read this information before placing your order for new phone service.

Your 3 Steps to Telephone Service

Call 1 800 244-1111 (for home), or 1 800 603-6000 (for business), and a service representative will describe the services available to you, explain what each costs, and take your order. We will need to know a few things about you and the service you want:

Step 1

How do You Want to be Listed?

We will need:
Your complete street address
(including apartment or suite number)

You may choose how you want to be listed. A listing in your local QwestDex™ telephone directory is free. For options available to you, call 1 800 244-1111 (for home), or 1 800 603-6000 (for business).

Privacy Listings

If you don't want your name in this book, you have two choices. Your name and number can be left out of the directory, but still be available from directory assistance (non-listed). Or your name and number can be left out of the directory and not be available from directory assistance (non-published). There's an additional charge for either option. For health and safety purposes, your non-published or non-listed information may be released when you call 9-1-1 or other emergency service providers.

Premium Listings

Are available for an additional charge. These include: additional listings; listings for a number outside of the area normally included in a particular directory; cross references to other listings; informational listings that include non-promotional information and alternate call listings that refer to another number. Call 1 800 244-1111 (for home), or 1 800 603-6000 (for business) for details.

Step 2

You Need to Make Some Choices...

Type of service: Unlimited or Measured

Local long distance company
Long distance company

You may choose the type of basic telephone service that will best meet your needs. The following plans are available in most areas:

Sheldon: Home–$10.71; Business–$25.60

Merrill: Home–$11.68; Business–$28.35

Another option is *Measured* service. This option can reduce your cost for telephone service because you pay only for what you use.

Home:
Basic Service: $7.21 (no call allowance)
Budget Pac: $8.91 (3 hour call allowance)
Value Pac: $10.99 (6 hour call allowance)
Usage = $.02 per minute

Business: Sheldon: $20.85 (no call allowance)
Merrill: $23.60 (no call allowance)
Usage = $.03 per minute

For information on rates and availability, call 1 800 244-1111 (for home), or 1 800 603-6000 (for business).

You Need to Select a Long Distance Company

Qwest and other companies provide long distance service within your local long distance calling area.

You must also select a long distance company to provide long distance service to other calling areas.

If You Have Phone Service and Need to Make a Change

Step 3

Costs & Necessary Deposits

We will need:
Information about your previous telephone service, including phone number, city and state

Employment and credit information (for home telephone service)

Business ownership information (for business service).

What it Costs to Begin or Change Service

The one-time charge to install or change your telephone service depends on the amount of work required. Generally, you're charged for the work required to process your order and to connect or make changes in your service.

We require advance notice to install new service.

For more information call 1 800 244-1111 (for home), or 1 800 603-6000 (for business).

There is no Charge to Disconnect Your Phone Service

Call 1 800 244-1111 (for home), or 1 800 603-6000 (for business) to stop your service. You pay only for the time your phone is connected.

Advance Payments and Deposits

If you are a new customer with Qwest or have recently moved and need to reestablish service, we may ask for an advance payment or deposit.

Deposits are based on local service and long distance charges. For information on deposit requirements, call 1 800 244-1111 (for home), or 1 800 603-6000 (for business).

We may require a new or additional deposit if we stop your service because your payment is late. There's also a charge to begin service again.

Your Deposit will be Refunded

With interest after 12 months if your phone bills are paid on time. If you discontinue service during this time, the deposit and interest will be applied to your final bill.

Deposits for Other Companies

Qwest handles billing and collections for some long distance companies and may require a deposit for these companies. The amount will be based on your estimated long distance charges for two months.

If You Need New Telephone Wiring or Jacks

You have three options:

1. You can have Qwest do the work. If you have our technicians install jacks or wiring inside your home or business, you'll be charged for the time the technician is there and for the materials used. Call 1 800 244-1111 (for home), or 1 800 603-6000 (for business) for information.
2. You can have an independent contractor do the work.
3. You can do the work yourself. All inside wiring must meet certain technical standards.

Local Long Distance Calling

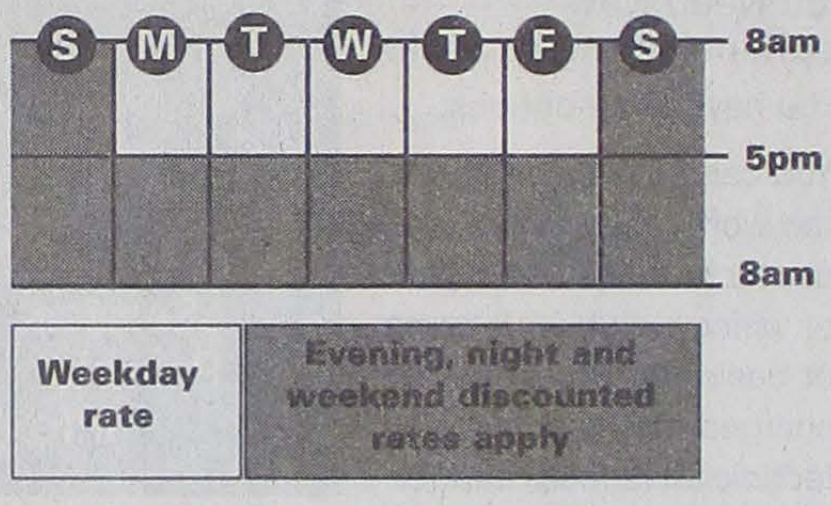

Discounts Within Your Calling Area

Direct Dialing Saves Money

Dial your own local long distance calls to pay the lowest rate and only for the minutes you talk. Dial "0" for information on Qwest long distance rates.

Discount Calling Periods

The chart below shows the times you can get a discount on local long distance calls within your calling area. Calls requiring operator assistance will include an additional service charge that does not qualify for a time-of-day discount. Save money by calling evenings, nights, weekends, and selected holidays (New Year's Day, July 4, Labor Day, Thanksgiving and Christmas). If you start your call during one time-of-day period and hang up during another time-of-day period, your call will be prorated between the two.

Qwest Calling Plans

Qwest offers a variety of local long distance calling plans to save you money. Call 1 800 244-1111 (for home), or 1 800 603-6000 (for business), for more information to see which plan best serves your needs.

Calling Card Calls

Your Qwest Calling Card is accepted by many long distance and local telephone companies for billing the telephone calls you make. Using your Calling Card does not mean that Qwest or any particular company will handle the call. Which company handles the call may depend on which company provides service to the telephone you are using to make the call, and that company may not be the one you have selected as your long distance company for your home or business service. Rates for calls charged to your Calling Card are established by the company that handles the call.

Continued next column

Calling Card Calls (cont'd)

Here's how to make a Calling Card call:

- From a push-button phone with Touchtone service: Dial 0 + area code + the telephone number, wait for the tone, then dial your Calling Card number.
- From a rotary dial phone: Dial 0 + area code + the telephone number, wait for the operator to answer, say you're placing a Calling Card call, and give your card number.
- To the same telephone number that's on your Calling Card: Dial 0 + area code + the telephone number, wait for the tone, then dial your four-digit personal identification number (the last four numbers on your card). For calls made from another calling area, dial your area code before you dial your phone number.

Protect Your Card Against Fraud

1. Use a card reader phone whenever available.
2. Position yourself so that people standing near you cannot watch you dial or hear you say your personal identification number.
3. Never give your personal identification number to anyone calling you, even if they identify themselves as phone company employees, law enforcement agency representatives, or long distance security personnel.
4. Examine your monthly bill.
5. Call the appropriate number on the back of your Calling Card immediately if you suspect fraud on your card.

Operator Assisted Calls

Using the Operator to Make Calls Within Your Calling Area

There is an additional charge for calls requiring operator assistance. They are more expensive than Calling Card calls or calls dialed directly from your home or office.

Collect Calls

Dial 0 + area code + the number. Tell the operator you're making a collect call. The operator will hang up when someone at the number you've called accepts the charges.

Calls Charged to a Third Number

Dial 0 + area code + the number. Tell the operator you want to charge your call to a third number. If you're calling from a public (pay) phone, the operator will call the third number to make sure the charges will be accepted. The call won't go through if the operator can't get approval.

Person-to-Person Calls

Dial 0 + area code + the number. Tell the operator you're making a person-to-person call to a specific person. The operator will hang up and charge you for the call only if that specific person answers. You can place a person-to-person call when you call collect, use your Qwest Calling Card, or charge your call to a third number.

If You Want to Know how Much Your Call will Cost

Dial 0 + the long distance number. Tell the operator you want "time and charges." When you finish the call, a computer voice will return to the line to tell you what you'll be charged.

Operators can Check a Busy Line

In most areas, to determine if someone is actually speaking on the line. There may be a charge for this service.

Additional Services

Qwest offers a variety of optional calling services. For information on the prices and availability of these and other services in your area, or for additional instructions on using these services, call the appropriate number on the next page.

Call Waiting

A short tone signals that another person is trying to call you when you are on the phone. You can put one call on hold while handling the second call, or alternate between the two.

To Use Call Waiting

1. When you hear a brief tone, quickly press and release the receiver button on your phone. Answer the second call.
2. To return to the first call or alternate between calls, quickly press and release the receiver button each time.
3. You may also answer the waiting call by hanging up and waiting for the phone to ring.
4. To cancel either call, simply hang up. When your phone rings again, you'll be connected with the person who's still on the line.

To Cancel Call Waiting Per Call

1. Before making your call, push *70 on your Touchtone phone (or dial 1170 on your rotary dial phone). You will hear 3 short tones followed by a dial tone.
2. Place your call.
3. Call Waiting is automatically restored when you hang up.

If you also have Three Way Calling, you can turn off Call Waiting during a call. Here's how:

1. Firmly depress and release the receiver button on your phone during your conversation.
2. Push *70 on your Touchtone phone (or dial 1170 on your rotary dial phone).
3. Push the receiver button again to continue your conversation without interruption. Call Waiting will not work until you hang up.

2. Calls marked "PRIVATE" or "ANONYMOUS" are from callers who have chosen to block delivery of their name and number.

3. To cancel Anonymous Call Rejection, lift the receiver and dial *87 (rotary 1187).

To remove blocking on just one call, press *82 (1182 on rotary phones). Use one Call Unblock, *82 before you dial the number. This will allow your name and number to display to Caller ID customer on just that one call.

Call Waiting ID

To Use Call Waiting ID

1. Once your Call Waiting ID service is activated, just follow the instructions with your display unit to install and operate.
2. The Call Waiting and Caller ID section of these instructions provide more information on how to operate these services.

NOTES

Iowa Voter Registration

As the State Commissioner of Elections and State Registrar of Voters, I want to encourage all Iowans to exercise their right to vote. Registering to vote is the first step. Studying the candidates and issues makes each of us better informed as we cast our vote on election day.

The county auditor is your local source for information on election dates, polling places, and voter registration records.

If you have election-related questions or concerns, feel free to contact my staff in the Elections Division at: (515) 281-0145 (voice), TTY: (515) 281-5865. You may also contact my office toll free at 1-888-SOS-Vote (888/767-8683) to leave a message, or visit our website at www.sos.state.ia.us.

Sincerely,

Chester J. Culver
Secretary of State

Absentee Voting

Any registered voter may apply in writing to the county auditor to receive an absentee ballot. The application shall be signed personally by the applicant and be filed with the county auditor not later than 5 p.m. on the day before the election. The voter may vote in person in the office of the county auditor, or have a ballot sent to them by mail.

Voting Locations

Election notices are published in local newspapers naming the polling place for each election precinct, the date of election, and the hours during which the polls will be open. County auditors also have this information. Every effort has been made to provide voters with disabilities with polling place accessibility or, when requested, absentee ballots.

Iowa Voter Registration

Instructions

1. Use this form to register to vote or to report a change of name, address, telephone number, or party affiliation.
2. Use a ballpoint pen to fill in all the blanks on the form.
3. Carefully cut out the form with scissors.
4. Address an envelope to:
   Commissioner of Elections Courthouse
   (your county seat), IA (ZIP)
5. Insert the completed form into the envelope (be sure it is signed), affix first-class postage, and mail.
6. You should receive a receipt for this application within 14 days. If you do not, contact your county auditor.

Registration

To register to vote in Iowa, you must:

- Be a citizen of the United States.
- Be a resident of Iowa.
- Be at least 171/2 years old (18 years old to vote).
- Not have been convicted of a felony (or have had your rights restored).
- Not currently be judged mentally incompetent by a court.
- Give up your right to vote in any other place.

Deadlines for registering to vote are 10 days before a primary or general election; 11 days before any other election. You may register after the deadline, but your registration will not be effective until after that election. Normally, an application must be received by the deadline in order to be valid for the election. However, if your registration is postmarked at least 15 days before the election, it will be accepted for that election even if it is received after the deadline. Registration is permanent. After you register, you do not have to register again unless you move to a new address.

Warning! If You're Suffering From An Auto Accident Injury (whiplash), Don't Call Any Doctor Until You Read This.

Did you know there are doctors who specialize in treating people who suffer from auto accident injuries?

It's true. You see, working with motor vehicle accident victims requires special examination and treatment to help your problem. It also requires special documentation for insurance companies and attorneys.

It's important that your condition be very carefully and properly treated for maximum recovery. It also has to be thoroughly documented, because what is done and recorded can make the difference in the results of your case.

In addition, the doctor may have to make court appearances or depositions on your behalf. Many physicians aren't willing, or just are not an expert in this.

Fortunately, there is a clinic in Ames that specializes in motor vehicle accident injuries. In addition, we are experts in caring for nerve-muscle-joint problems, especially those of the neck, back, legs, and arms.

Call 233-1709
Same-day appointments usually available to help you and put an expert on your side. Appointments are available from 7:30 AM to early evening, plus Saturday mornings.

The QwestDex™ Yellow Pages Return On Investment Worksheet

Measure the results of your yellow pages advertising using the six simple steps on this worksheet.

QwestDex

	Example	Your Figures
1. **Number of calls to make one sale.**	2	
2. **Average gross profit per sale.** (Average sale minus direct costs)	$75.00	
3. **Yellow pages investment per month.**	$300.00	
4. **Desired ROI for yellow pages advertising.** (For example, to calculate a 2:1 return on your monthly investment, multiply Line 3 by two)	$600.00	
5. **Number of sales per month to meet ROI expectation.** (Line 4 divided by Line 2)	8	
6. **Number of calls per month to meet ROI expectation.** (Line 5 multiplied by Line 1)	16	

In the example shown, you need 16 people to call or walk in each month to generate the $600.00 in sales necessary to meet a 2:1 return on your investment.
